About Us

Narsingh Global Academy is an international educational institution situated in Firozabad that imparts quality education to the students of the town. The school has state-of-the-art practices that focus on a child's all-around development.

We prepare our students for a 21st-century world, one that demands a highly proficient, skilled and multi-tasking workforce. Our curriculum is set in such a way that when our students step into the outside world after school, they will have with them the imperative skills such as leadership, teamwork, strong communication skills, problem-solving skills and positive work ethics.

We have a group of committed faculty who guides our students in their journey towards self-reliance, lifelong learning, excellence and being a responsible citizen.

Our Academic Partner

Beas Dev Ralhan
Co-founder and Chief Executive Officer
Next Education India Pvt. Ltd

The vision of Next Education is to make quality education accessible to all learners across the country and equip them with essential 21st-century skills. We believe that this vision can be achieved only with the use of technology, specifically technology-enabled educational products and solutions that will effectively address the challenges prevailing in the current education scenario.

As an education solutions provider, we have made use of the best technology and the best minds in academia to develop a holistic curriculum that prepares students for the challenges of tomorrow's world.

This is the reason why the scope of Next Education's learning solutions transcends academics and covers essential 21st-century skills such as creativity, critical thinking, communication and collaboration. These skills are essential for a learner to succeed in today's competitive world.

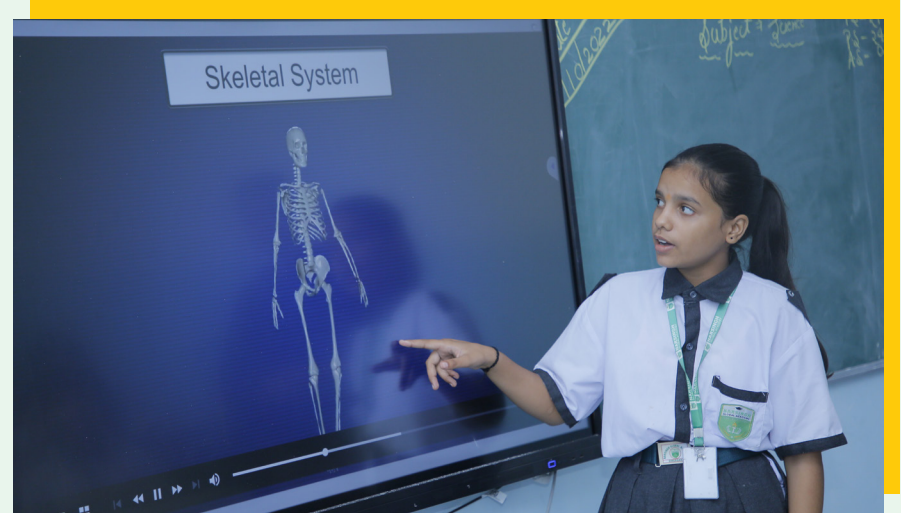

As an academic partner, we aim to deliver the promise of nurturing and mentoring the country's young generation. Through our technology-driven curriculum, we aim to ensure the holistic development of learners, which includes not just core academics but also essential life skills. Our curriculum does away with rote learning and emphasises on making the child think, evaluate, reason, learn, assimilate and apply the knowledge they gain.

With our technology-enabled curriculum, we are sure that the school will set new standards in delivering quality education and effective instruction to its students, inspiring curiosity, imagination and creativity in them.

Vision and Mission

Vision

We believe that children should be allowed to learn and experiment while growing until they find a field that they excel in. We help our students in identifying their strengths and overcoming their weaknesses, so they can increase their mental strength and become capable of making the right decisions independently.

Mission

We believe that each student must be given an opportunity to prove themselves. We aim to help them excel not only in academics but also in various other extracurricular activities. We believe children should be allowed to polish their creativity, so they can grow into successful professionals.

Life at our School

School years are the most memorable ones in an individual's life. They contribute to the personality development of a child. How and where a child spends these crucial years makes a lot of difference. Interactive learning enables greater retention than passive learning. We, at Narsingh Global Academy, work tirelessly to provide the best learning experience to our students. We focus on multi-dimensional growth of individual students. With us, your child will have access to:

- The best academic and non-academic facilities which will ensure their overall development
- Wide range of knowledge resources
- A holistic learning environment where knowledge isn't limited to books
- More than 2500 hours of audiovisual content, 500+ integrated tools and simulations and question bank containing more than 200,000 questions
- All-round academic development

Co-Curricular Activities

Co-curricular activities are a great way to relieve academic stress, they also contribute to the overall development of a child. By providing them with activities other than academics, we aim to provide students with opportunities to realise their potential and other interest areas.

Reading Club

To inculcate a love for reading, we have a reading club. The students can spend time reading some of their favourite books.

Art and Craft

The kids can bring out their creative side with art and craft. Our expert teachers help them make one-of-a-kind artistic pieces

Drama Club

Narsingh Global Academy helps its students bring out the star in them. Students can improve their acting skills by being part of our Drama Club.

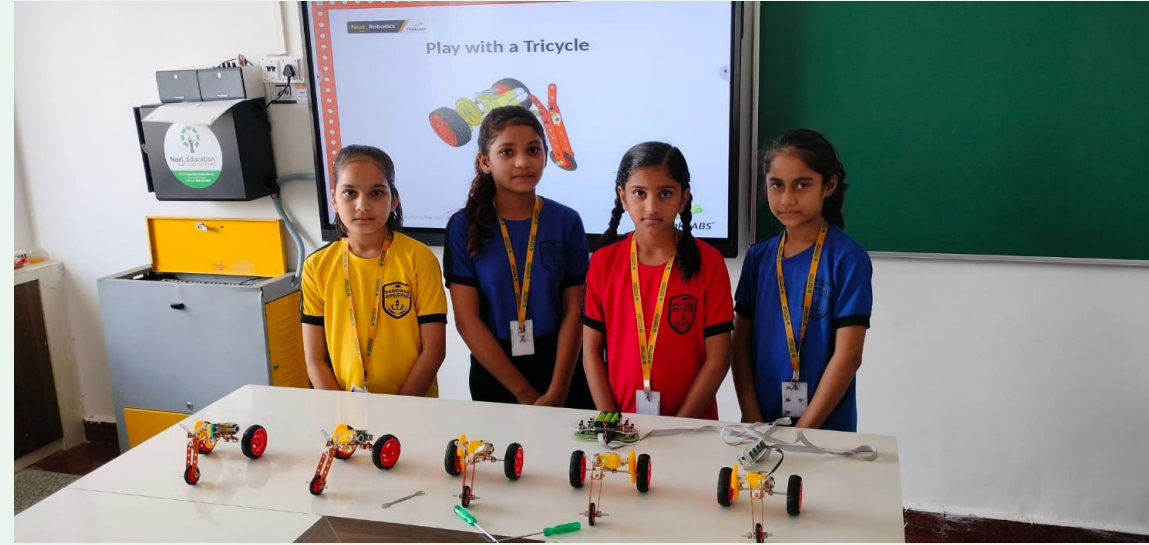

Music and Dance

Music and dance are essential for the overall development of young minds. At Narsingh Global Academy, our expert faculty makes sure the students enjoy and get skilled at the same time.

Labs at Narsingh Global Academy

Every lab in the Narsingh Global Academy is designed with the purpose of boosting experiential learning among our students by combining knowledge gained in classroom sessions along with experience. Our facilities inspire students to apply the classroom concepts they are learning to real-world experiences, thereby consolidating the way the information is retained in their minds.

Computer Lab

Technology and education go hand in hand, making it easier for students and teachers to stay updated. This helps teachers improve their teaching and lesson-planning skills too. The well-equipped modern computer lab at Narsingh Global Academy aims to make the learning process much simpler and more efficient, giving students access to tools and methods of communication unavailable offline. This helps the students be more involved in their lessons and work. Teaching students to be technologically advanced helps them prepare for various possible careers.

ScienceLab[®]

Science education today usually does not focus on practical application but instead relies heavily only on theoretical instruction, expecting students to remember concepts word by word. To thrive in a competitive and tech-savvy world, we need a science education based on a practice-based approach. We must remember that science education is mostly redundant without practical application. To address this challenge, Next Education has developed the Science Lab that aids scientific thinking in students, covering concepts of Physics, Chemistry, Biology and EVS.

English Lab caters to different needs of each learner, helping them improve in areas where they require support. It turns learning the language into a fun-filled experience with interesting games, helping students acquire skills and knowledge. The Lab comprises a whole gamut of literary genres such as fiction, non-fiction and poetry, helping learners with practical usage. With a built-in dictionary, pronunciation tool, phonetic tutor and writing tutor, the Lab empowers students to attain mastery over the English language.

Sports

- We encourage students to practice and participate in a variety of sports and games,
- We have a playground, where students are not only given enough opportunity for physical activity but also have enough exposure to sunlight,
- We have facilities to play outdoors,
- We conduct inter school and intra school competitions to motivate students,
- We facilitate a variety of sports events to promote group activities that foster cooperation and coordination.

SPORTZ VILLAGE

Sports as a hobby encourages participation and serve as a good platform for people to have fulfilling experiences. Sports is essential to a person's holistic growth since they enhance physical and mental well-being. We have partnered with Sportz Village, the world's largest sports youth platform. Established in 2003, Sportz Village's philosophy is based on improving children's health and fitness and getting everyone to experience the magic of sports.

This partnership lets parents get involved in their ward's sports activities at a deeper level. You can:

get to know what their child has learned in the sports classes.

view skill and fitness reports with detailed information.

stay updated about the events and other competitions conducted at the school.

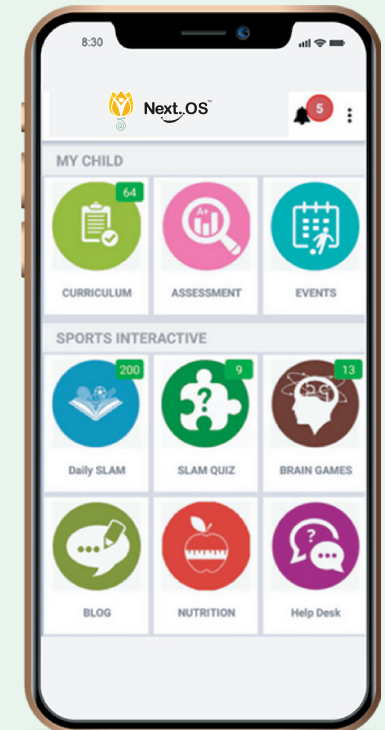

Enhance your child's general knowledge with daily informative messages.

Get health tips from nutrition and sports blogs.

Help your child improve in sports with the help of training videos.

Hobby Clubs

Hobby clubs are excellent ways for students to explore their passion outside their regular studies and learn as part of a community bound together by shared interests. Our school has partnered with some of the leading studios and vendors to set up hobby clubs. Each student can select two programmes from the list according to their interest and hone their skills.

TechStep

This programme includes web and app development and robotics that helps students to achieve digital fluency.

Creative Hearts

Art is important for the 360-degree development of students. Creative Hearts helps learn concepts through arts and enhance creativity.

- Digital Animation** : Create animated videos and games using various tools and software
- Public Speaking** : Create well-researched speeches and structure arguments through interactive speaking activities
- Photography** : Discover the art of capturing stunning pictures with different camera techniques

British School of Foreign Language

This club lets children learn French, Spanish, German and many more foreign languages with a focus on IELTS exams

Kaabil Kids

Kaabil Kids is a club that allows students to learn chess online from professional trainers and grandmasters on an online chess learning platform

TRINITY
COLLEGE LONDON

This is an international dramatics programme to learn acting, boost confidence and improve communication skills

HOBBY CLUBS

Safety and Security

Student's safety in the school is of utmost importance to us. Our school prioritises child safety and gives our students nothing less than the best because a safe environment leads to better physical, mental and intellectual development.

How safe is our school?

- We provide the best commuting facility to our students.
- The school buses that pick-up and drop our students are driven by experienced drivers.
- The bus drivers are given responsibility for children's transportation only after evaluating their driving tests.
- We only employ drivers who are thorough with the routes and have driven children before.
- Buses are tracked through GPS to ensure a safe ride to and from the school.
